Date :2011-03-01 version 2. Zhang Xing-yuan compiled the principle of fermentation. respectively. from the energy flow. material flow and information flow in three movements reveal the nature of microbial metabolism. for the first time proposed a study on the fermentation activity of microbial life. the three basic hypotheses. And to develop micro-organisms and microbial breeding process as a whole. the three basic hypothesis based on modern industry put forward a series of fermentation should be rigid reasoning. will enhance industrial fermentation to modern biotechnology and bio-engineering of highly . Fermentation principle identified microbial fermentation of behavior is the main industry is essential for cell fermentation production line machinery. and for a typical industrial fermentation of the cellular machinery to establish a working model. in this model based on the microbial metabolism of industrial The five-phase and industrial fermented five word strategy. This book demonstrates and microbial equal friendship. cooperation and win-win way of thinking. hoping to benefit readers and their applications in biotechnology pioneering work. This book is suitable for bio-engineering. bio-technology's senior undergraduate use. and for bio-engineering. bio-technology teachers. graduate students and research officers.
