Reviews

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Lupe Connelly)

PREDATORS AT RISK: IN THE PACIFIC NORTHWEST

Mountaineers Books, Seattle, Washington, U.S.A., 2000. Soft cover. Book Condition: New. First Edition. An insightful look into the background of current predator controversies, offering readers a better understanding of the species that inhabit the wild areas of the Pacific Northwest. Amazed by the general public's near-total lack of understanding when it comes to predator issues, Dan Nelson seeks to separate the fact from the fiction surrounding these wild animals of the Pacific Northwest. Offering insights based on fair and comprehensive research, Nelson explores the natural habits of wolves, cougars, coyotes, lynx, black bears, and grizzly bears. He explains each species' current status, the policies surrounding it, human perceptions of it, and what the future might hold for its survival in this region.
